Examiner's Remark

Applicant's amendment, terminal disclaimers and declarations under 1.131, filed on Nov. 27, 2007, has been received and entered into the file. The objection to specification, the double patenting rejection, 112 2nd paragraph rejection and 102 (a) rejections have been overcome in view of applicant's amendments/terminal disclaimers/declaration under 1.131/remarks and are hereby withdrawn. The 101 rejection of claims 17-18 are overcome by the examiner's amendment below.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael Glenn on 1/17/2008.

The examiner has amended the following:

Claims 2 and 3, second line: replace [subunit] with -sub-unit-

Claim 14, second line: replace [the step of investigating] with -a step of investigating-

Claims 17 and 18, first line: replace [containing] with -storing-

Allowable Subject Matter

Claims 1-20 are allowed. The following is an examiner's statement of reasons for allowance. The prior art fails to teach the listed claims each of which specifically comprises the following listed feature(s) in combination with other limitations in the respective claims:

dividing up the video frame or the picture in portions of a first type and portions of a second type, wherein the portions of the first type are associated with a first scanning pattern, and the portions of the second type are associated with a second scanning pattern that is different from the first scanning pattern;

choosing one of a first and a second set of context models, depending on as to whether the predetermined portion is a portion of a type being associated with the first or the second scanning pattern, the first and the second set being different to each other;

assigning one context model of the chosen one of the first and the second set of context models to the transform data unit based on the scanning position assigned to the predetermined transform coefficient, wherein each context model is associated with a different probability estimation; and arithmetically encoding the transform data unit or a sub-unit thereof into a coded bit stream based on the probability estimation with which the assigned context model is associated.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
